EDITORIAL COMMITTEE

INPHO Editorial Committee has demonstrated its ability to be at the forefront of deep tech investment detecting opportunities upstream of investment cycles.

+1B€ raised by deeptech start-ups that have joined INPHO.

inpho
2014

EFFECT
PHOTONICS

Selected in 2014, EFFECT PHOTONICS has raised \$124.1M since then.

With its single-chip coherent optics, Effect Photonics has become a highly vertically integrated, independent leader in integrated photonics.

Photonics Semiconductor

inpho
2022

unseenlabs
— THE BRIGHT SIGHT

Selected in 2022, UNSEENLABS raised a total amount of €112.5M in 2024.

Pioneer and Global Leader in Space-Based RF Detection to enhance maritime navigation and reduce environmental impact.

Ship Tracking

SUCCESS STORY

inpho
Award
2016

Funded in 2014 and selected in 2016 as Chronocam, PROPHESEE raised more than €105M.

Prophesee is the inventor of the world's most advanced neuromorphic vision systems

Machine Vision

inpho
2022

 **atom
computing**

Selected in 2018, ATOM COMPUTING raised a total amount of \$81M in 2024.

Building truly scalable quantum computers out of individual atom.

Quantum

inpho
2020

Selected in 2020, CORETIGO raised a total amount of \$66M in 2024.

Enabling fast & flexible manufacturing with high-performance industrial wireless automation for machine builders.

IO Technology

inpho
2020

FLYTREX

Selected in 2020, FLYTREX raised a total of \$60.3M by 2024.

Developer of drone delivery systems that simplify deliveries and enhance efficiency by shortening delivery times and lowering cost.

UAVs

SUCCESS STORY

inpho
2020

NVISION

Selected in 2020, NVISION raised €52.2M in 2023 in Series A Round

MRI Hyperpolarization platform based on parahydrogen - a long-lived quantum state of hydrogen.

Quantum

inpho
2018

Selected in 2018, IOST raised a total amount of \$50M .

Developer of a scalable layer 1 blockchain for online services.

FinTech

inpho
2018

AETHER

Selected in 2018, AETHER BIO raised a total amount of \$49.1M.

Developer of Machine Learning technology used to re-purpose enzymes in order to create a new compound.

Machine Learning

inpho
2018

teem
PHOTONICS

Selected in 2018, TEEM PHOTONICS raised a total amount of \$48.1M.

Developer of Q-switched microlasers as well as Photonics Integrated Circuits based on ion exchange technology.

Photonics

SUCCESS STORY

inpho
2018

cailabs
SHAPING THE LIGHT

Selected in 2018, CAILabs raised a total amount of €45.2M.

Provider of innovative photonics solution to increase the capacity of optical fibers

Photonics

inpho
2020

Circular

Selected in 2020 and raised £34.6M in 2022

A leading solution to industrial, complex supply chain traceability based on AI and Blockchain technology.

INPHO Value for Innovative companies

Benefit from a unique network of private investors sharing their expectations and analysis

Since 2008, INPHO Venture Summit gathers a unique and exclusive network of deeptech investors. They are joining to share their insights on what's next to invest, their expectation in term of value proposition as well as their feedback on investment opportunities.

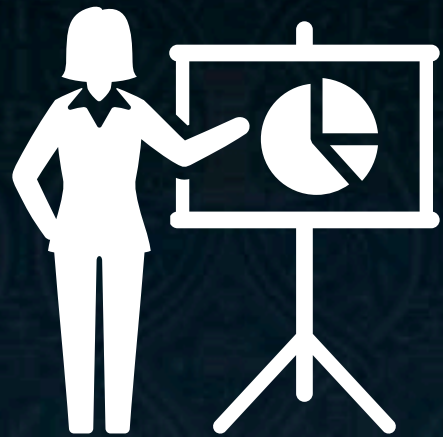

Deeptech
investors

Isomer, EIF, Quantonation, ETF partners, Positron Ventures, 360 Capital, Robert Bosch Venture Capital, TRUMPF Venture, Airbus Venture, Amadeus Capital Partner, EF, Parkwalk advisors, Apex Venture, BASF Venture Capital, Octopus Venture, Walden Catalyst Ventures, Syensqo Venture, Elaia Partners, QDNL participations, Americas Frontier, Matterwave Ventures, Supernova Invest, Positron Ventures, Safran Corporate Ventures among the list of 80+ VCs joining INPHO in Bordeaux and 150+ joining digital sessions.

INPHO Value for Innovative companies

Benefit jury digital sessions for one to one introduction to private investors

Entrepreneurs are invited to introduce their companies to INPHO editorial committee members. They will assess the opportunity to get introduced to INPHO investors community.

Selected companies will have the opportunity to join the INPHO Venture Summit and present to the digital jury for a 15-minute introduction to at least three different investors.

Start-ups

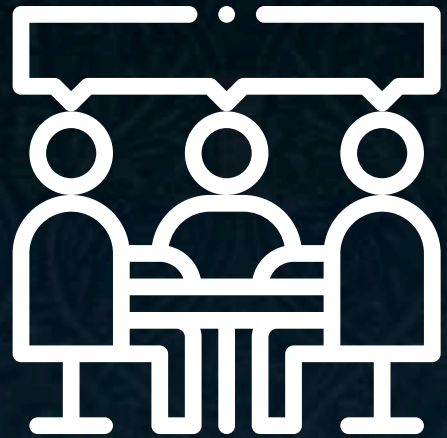

Pitches

Twenty finalists will be invited to a lively presentation and discussion at the INPHO Venture Summit in Bordeaux, France, on October 24 and 25.

INPHO Value for Innovative companies

Join deep-dive discussions on specific topics of interest.

Workshop

Innovative companies are invited to meet other participants sharing common interest on specific workshops, some of them organized by INPHO sponsors.

Thematic workshops for INPHO Venture Summit 2024 under discussion are related to:

- Quantum investment
- Photonics related investment
- Blue economy and maritime related investment
- Healthcare related investment
- Industry 5.0 opportunities

INPHO Value for Innovative companies

Participation process

1. Introduce your company on line: <https://www.blumorpho.com/inpho-venture-summit-2024/>
2. Receive feedback from INPHO Editorial Committee
3. Confirm your participation to join the digital jury
4. Get ready for a minimum of 3 introduction meetings to investors
5. Join INPHO Venture Summit in Bordeaux, October 24 & 25 to follow-up discussion, challenge the question on “what’s next to invest in deeptech” and meet more investors.

Participation fees

960 Euros
taxes excluded
